

Lesson Idea - Composting

Exercise

- The Teacher has 3 different coloured boxes ('bins') similar to that at home and in the school environment - compost box, recyclable box and general waste
- The Teacher displays various items that can go in each of these 'bins' i.e. milk carton, newspaper, tea bags, egg shells, plastic, vegetable peels etc.
- The teacher holds up the various waste and asks which 'bin' it should go into.
- The teacher waits for a response and places the waste in the correct 'bin' and explains why it goes in there.
- Students complete the worksheet.
- Students should be encouraged to sort waste and compost fruit and veg peels etc.

COMPOSTING

Draw an arrow from the items that CAN be composted to the composting bin. Draw more items that can be composted.
