

Senior 5th and 6th Class

SESE Activity - Science

The following resource has been designed based on the Food Dudes Week, senior level, day 2 video. This resource links with the Science curriculum for 5th and 6th class groups.

This activity links with the following curricular areas:

SESE > Science > Living things > Human Life

Video Message: This video is about farming and nutrition.

Key Learning Outcomes:

5th and 6th Class Pupils should be enabled to:

▼ Develop a simple understanding of the structure of some of the body's major internal and external organs

Human Body Activity:

Note for teacher: Link to video of Human Body song https://www.youtube.com/watch?v=bRkuwTq1nmQ&abchannel=B00B00GAGA

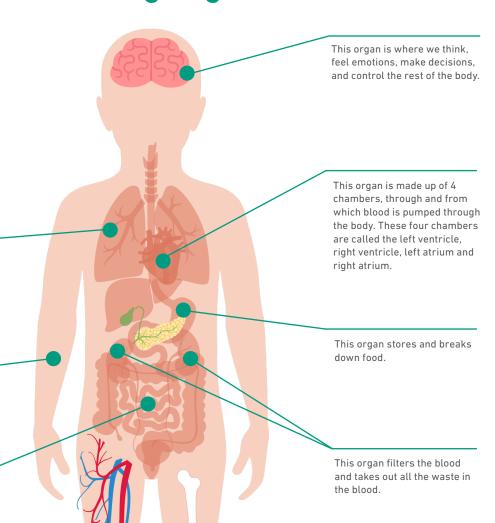

SESE Activity - Science

Food Dudes Week

Your Body Organs

This organ allows us to breathe. It brings oxygen into our bodies (called inspiration, or inhalation) and send carbon dioxide out (called expiration, or exhalation).

This organ covers and protects everything inside your body.

> This organ is shaped like a long tube. It helps break down food so that the body can use it for energy. It also removes waste from the body.
